Subject description.
This course offers Year 10 students the opportunity to taste and experience the study of fashion.

At the end of Year 10 students would have an advantage in their further studies, in fashion for Year 11 and Year 12. The fashion pathway for Year 11 is a choice of Studio Arts in fashion, Design Technology in fashion and Vet Certificate 11 in Applied Fashion Design and Technology.

The Year 10 fashion course takes students through the process of designing and constructing garments. Students will develop basic sewing skills and learn how to create a design folio. Students learn how to apply design elements and principles in a folio. Students investigate fabric s and research past and present fashion designers.

Major Topics Covered
- Fabric characteristics,
- Basic sewing practice
- Use of appropriate equipment.
