Making Art – Year 10 Elective

Students are introduced to a range of art media, skills and concepts. The emphasis with work is the acquisition of practical skills to equip students with knowledge to assist them with VCE Art, should they continue in this subject. For students not continuing, the objective is for the student to familiarise themselves with art knowledge and enjoy themselves, creating both 2D (two dimensional) and 3D (three dimensional) pieces of artwork.

Major Theory and Practical Topics -
- observational drawing,
- tonal rendering,
- acrylic painting
- the creation of a sculptural piece etc.

Assignment work varies from year to year and is teacher directed.

Pre-requisite subjects: None.

Fees - In addition to the standard materials fees a charge of $65 was applicable in 2012.
