Multimedia – Yr 10 Elective

The Year 10 Multimedia course provides students with the opportunity to gain fundamental knowledge and skills that enable the investigation and understanding of Multimedia art forms. Students learn to interpret a work brief and prepare developmental work in order to complete practical productions. The major topics focus on developing skills using equipment and software including HD Video Cameras, Garage-band, iMove, Final Cut Pro, Digital Photography and Flash Animation. The theoretical component supports student learning by developing analytical skills and an introduction to art elements and principles.

Major Topics Covered
Sound editing
Video Production
Stop-Motion Animation
Digital Photography
