Box Hill Senior Secondary College offers a unique Basketball Academy program

Basketball Academy

Box Hill Senior Secondary College (BHSSC) has been formally recognised by the Department of Education and Training (DET) as a ‘Specialist Sports School’.

The main aims of the program are for students to:
- Combine VCE study with intensive sport training and individual skills development during school hours.
- Develop skills and a knowledge and understanding of their sport.
- Study subjects relevant to their career goals that contribute to their ATAR score.
- Develop and enhance self-discipline, time management, goal setting and leadership skills.
- Enjoy playing the sport.

The basketball program consists of one 90 minute squad session and two 60 minute skill sessions each week. Students are also required to do one weight session per week. The college competes in the Victorian Secondary Schools Sports Association and the Victorian College Championships. Every second year the college embarks on a USA tour in November and December. The next tour is planned for 2016. The college also provides a sports medicine referral service for all students.

RELATIONSHIP WITH SCHOOL PROGRAM

The Sport Development program acknowledges the development of the student both in their sporting and school program. The college recognises that students must also plan for a career beyond sport.

Students undertaking the Sport Development Program may select their VCE program from the wide range of academic and vocational VCE courses offered at Box Hill Senior Secondary College. It is important that students take into account their individual talents, skills and future career interests when making their VCE course selection. Students will be assisted in appropriate course selection at interview. For students interested in career pathways relating to sport, the college offers studies in, Physical Education, Outdoor & Environmental Education, VET Sport & Recreation, Health & Human Development & Biology.

Students do one 90-minute squad session and two 60-minute skill sessions each week.
