

# Soccer Academy

Box Hill Senior Secondary College offers a unique Soccer Academy program

We are seeking boys and girls who are passionate about playing the world's greatest game.

Skill development and strength and conditioning sessions are built into the weekly Academy Programs. International and national tours and tournaments are also offered to all students.

Box Hill Senior Secondary College (BHSSC) has been formally recognised by the Department of Education and Training (DET) as a 'Specialist Sports School'.

## High Expectations and Academic Excellence

Box Hill Senior Secondary College, while offering a range of specialist sport academies, also offers a full academic program including VCE, VETis and VCAL subjects or courses for all students to select from.

The school has high quality programs in the Arts, Trade Training, Music, Food and Hospitality as well as the Sciences, through a variety of subject offerings. We are also highly aspirational in striving for excellence and all students are provided with on-going counselling, careers and pathways support through our College wide Advocacy program, where we actively discuss and work with all students to investigate and plan for their future.

The school has a flourishing international student program, with international camps and tours planned for 2021 and beyond, along with university and industry partnerships to support students and their aspirations into the future. This highlights our diverse community and the range of learning opportunities on offer for all students.

Students in the Specialist Sport Academy programs must also meet increased and on-going academic standards and checks, to ensure that their future academic or career options are successfully met. We look forward to discussing a possible enrolment with you in the near future.
